Subject: High 55 Hope Initiative

Dear Spero Family,

We are writing to you at what may seem like an odd time, given the very real fear and uncertainty that the coronavirus has unleashed in our midst and beyond, yet our ministry here in Yolo County is needing your prayer and financial support right now more than ever.

As you may recall from our Christmas card, we listed the initials and birth dates of the little babies whom the services of Pregnancy Support Group/DBA Spero helped bring into the world in 2019. Since they numbered fifty-five, we have come up with High 55 Hope as a rallying cry for 2020. A high five to you and you may not be aware that our new brand Spero means "I hope" in Latin. Our goal is to be where hope lives for those who face unplanned pregnancy, both in advance and well after those precious babies are born.

As believers, we are mindful of how our gracious Lord provides good gifts for us His children and that He often multiplies the blessings we receive and pass along to others. Please consider the following key points:

- We are the only life-affirming pregnancy center in Yolo County, which has five District Supervisors, and we had been operating our mobile unit in the five communities of Davis, Esparto, West Sacramento, Winters and Yolo before the coronavirus caused an interruption in our service outside of our still open Woodland office at 120 Court Street.
- We rely on regular fundraisers for financial support and our Golf 4 Families, Bowling for Babies and fifth annual Golf Fore Life events between now and early May have had to be cancelled or rescheduled.
- We think that giving in increments of \$55, whether one time or recurring, can help us to raise the \$5,555 or more that we need in order to keep providing the free of charge support services that current and future clients need in order to be empowered to choose life for their babies.

In closing, we have noted that Isaiah 55 is an invitation and we very much invite your prayers for our ministry. It also seems noteworthy that Psalm 55 begins with a posture of listening and ends with a decision to trust. We thank you in advance for giving us consideration on this funding request we look forward to hearing from you soon.

Warm Regards,

*Carol*
